Why Businesses Partner with ProTech

- 24/7 video monitoring that connects you directly with dispatch services for quicker response times
- Real-time video verification of crimes in progress to alert police and improve response times
- Proactive system health checks that analyze your security system, cameras, hard drives, and more to improve performance and keep your business secure
- Video cloud storage allows you to access your video surveillance easily without taking up space on your cameras
- Installation of all of your security solutions to ensure proper functionality
- Expert inspection and repair services to keep your security solutions working their best
- Custom design and engineering of security systems that fit the needs of your business

Best-In-Class Video Monitoring & Security Solutions

Commercial Security Challenges

24/7 System Monitoring

Consistent diagnostic checks to make sure everything is recorded.

Custom Security Solutions

Our security experts will work with you to create a security system that meets the needs of your business.

High Definition Cameras

With the best cameras on the market, your video surveillance will be high definition.

Video Surveillance Management

Have 24/7 access to your videos, store clips, and sort through your footage with these management systems.

Video Cloud Storage

This storage allows you to keep your videos while not bogging down the storage on your camera..

Remote Video Monitoring

Customized monitoring solutions that make sure your business is safe around the clock.

Local Service Technicians | Vertical Integration | 24/7 Live Video Monitoring Centers
